Perfect game to satisfy your desire for achievements. <3. Bad localization and clunky controls. Cheap scares and annoying fail condition.. This is very confusing and maybe even IMPOSSIBLE to use, I reccomend, you DON'T get it.. The game is fun until it becomes too repetitive, I think it's worth on sale.. I have played chess at club level. I think this software is enough for analyze the chess game. You can input mutiple chess engine in to the program. There are thousands of chess game from the grandmaster to learn from. At first the program is difficult to use, the interface is sure confusing. If you don\u2019t want to spend money, i would suggest free mobile application as an alternative.. Old Scool Games are the best kind of games. A Great game. Wanna play online with other players? owo

History repeats.. I bought this game for 0.39 GBP. I think I completed it in about 1.5 hours, roughly. When I first loaded up the game I was quite tempted to turn it off. But I am glad I didn't. It's not a long game, and you can tell it's made by just one person, but It's fun for what it's worth. I think what made it fun for me was figuring out exactly how to kill some of the 'things'. There are certain methods that standard FPS games dont use, and that made this one slightly different.

The creator has certainly put some thought in the level design, gradually introducing the player to ideas first before throwing you in the deep end. The sounds were a little corny, and I didn't find the game particularly scary at all - so I think 'horror' is a bit too far fetched.

But hey - Was it worth 39p? Of course it was. If I had made this game I would be proud. It's fun, it's short, it's a bit silly in places, I enjoyed it. I felt like i was playing someone's baby. Oleg - you've potential, my suggestion would be to find a team and work with them. You could create something great.. 10/10 sucks.. Awesome game. The developer has really re-invented the game Asteroids

Multi coloursV10. I own this because it was in the bundle, theres no reason to buy small this for small figures that your barely see.
